EU5G

State of play

Stakeholder meeting 13-12-2023

Status of EU5G development

- Phase 2 (development of the candidate scheme) started January 2023 delayed again
  - Follow the EUCC IR finalization as a roadmap
  - Harmonization of aaccreditation and vulnerability handling requirements among the schemes
  - Lack of a working arrangement with GSMA and ETSI
  - Recent GSMA documents submitted to ETSI
  - Unfamiliarity with GSMA SAS scheme

- Public consultation on draft scheme expected in Q1 2024

Current key discussion items

- eUICC
  - Availability of SAM and CSP specifications
  - EU-PKI to manage the deployment of wallet applets on top of the eUICCs
- NESAS
  - Vulnerability analysis and related pilots
  - Transformation of GSMA documents into ETSI
  - Maintenance organization
  - Scheme policy on authorization and certification by public bodies
  - Audit report format (depending on accreditation requirements)
  - Validity of audit report versus validity of certificates
- SAS
  - Scope of certification
  - Transformation of GSMA documents into ETSI and maintenance organization
  - Audit format and accreditation requirements

Thank you for your attention…

EUCC

State of play

Stakeholder meeting 13-12-2023

ECCG

- European Cybersecurity Certification Group
  - 12th July 2023
  - 22th September 2023
  - 20th October 2023
  - 20th November 2023
- Mostly focussed on EUCS

ECCC

- European Cybersecurity Certification Committee
  - Meetings where MS discuss their comments on IR with the EC
  - Positive opinion needed by qualified majority from MS

Status of Implementing Regulation

- DGCNECT provided MS with IR on 27th September

- Establishment of ECCC
- IR provided to WTO-TBT for notification (60 days)
- IR published on 'have-your-say' for public comments (due 31 Oct)

- Many changes from ENISA proposal:
  - Status and use of PPs
  - State-of-the-art documents
  - Mandatory withdrawal from CCRA
  - 1 year transition period
  - Etc.

- Adoption/Publication of EUCC Implementing Regulation expected by end of this year

ECCG/ENISA current work items

- "state-of-the-art" document on Accreditation of ITSEFs included in IR
- New "state-of-the-art" documents
  - Accreditation of CABs
  - Vulnerability handling and disclosure

- EUCC maintenance
  - Establishing an ECCG subgroup for EUCC maintenance coordination
  - Establishing an ISAC for supporting document creation and maintenance

- ECCG Crypto subgroup
  - Continuing the work from the SOG-IS crypto group
  - 1st meeting held, agreement on work items and status of output documents

Other activities in liaison with EUCC
